PROFESSIONAL SUMMARY

Computer Engineering student with hands-on experience in full-stack web development, gained through a Summer GTU Internship and independent MERN-stack projects. Skilled in building responsive, production-quality web applications using React.js, JavaScript, Node.js, Express.js, and MongoDB. Strong foundation in REST APIs, state management, and version control, with a track record of shipping and deploying working applications. Seeking a Frontend Developer, MERN Stack Developer, or Software Development Intern role.

TECHNICAL SKILLS

Programming Languages: C, Java, JavaScript, SQL

Frontend: HTML5, CSS3, React.js, Vite, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MongoDB Atlas, MySQL

Tools & Platforms: Git, GitHub, GitHub Desktop, VS Code, Postman, npm

Core Concepts: React Hooks, REST APIs, CRUD Operations, Local Storage, Responsive Web Design

INTERNSHIP EXPERIENCE

Full Stack Development Intern | *Shrinav (Remote)*

July 2026

- Developed 6+ React applications during a 2-week Summer GTU Internship, implementing CRUD functionality, React Hooks, and responsive UI design.
- Built reusable component libraries across all 6 projects, Built reusable React components to improve code organization and reduce duplication across multiple projects.
- Implemented React Hooks and Local Storage-based state management across 6 applications, enabling persistent data with zero backend dependency where required.
- Integrated Node.js, Express.js, and MongoDB with REST APIs across 3+ full-stack builds, enabling dynamic, database-driven functionality.
- Used Git for version control across all projects, maintaining a clean commit history and resolving merge/debugging issues without losing project progress.

PROJECTS

Rewind AI

Tech Stack: React.js, Node.js, Express.js, Vite, OpenRouter API

- Developed a full-stack AI web application integrating Groq and Gemini models via the OpenRouter API.
- Built secure frontend-backend communication using REST APIs and environment variables.
- Implemented reusable React components, loading states, and error handling.
- Deployed the application on Vercel and resolved CORS and API integration challenges.

[GitHub](#) • [Live Demo](#)

Job Application Tracker

Tech Stack: React.js, Vite, JavaScript, Local Storage

- Built a React application with complete CRUD functionality for managing job applications.
- Implemented search, filtering, React Hooks, and Local Storage for persistent data.
- Designed reusable components with a responsive user interface.

[GitHub](#) • [Live Demo](#)

Expense Tracker

Tech Stack: React.js, JavaScript, Local Storage

- Developed a React-based Expense Tracker for managing income and expenses.
- Implemented transaction filtering, state management, and real-time balance calculation.
- Built a responsive interface using reusable React components.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Engineering

Government Engineering College, Gandhinagar | Expected Graduation: 2027 | CGPA: 7.59 / 10

CERTIFICATION

Summer GTU Internship – Full Stack Development, Shrinav (July 2026)

LANGUAGES

English, Hindi, Gujarati
